

## **Capitol Neighborhood, Inc.**

### **Minutes of Development Review Oversight Committee May 15, 2007**

1. Members Present: Tom Geier, Peter Ostlind
2. Ostlind is working with Bill Patterson to create a web based registry of development proposals within Capitol Neighborhoods.
3. Proof copies of the full Protocol and the Developer Edition are being reviewed prior to printing. There will be 100 copies of the full protocol in three ring binders and 50 bound copies of the Developer edition printed.
4. Stitt and Geier met with Frank Staniszewski of Madison Development Corp. to do a closeout meeting on the project at 437-443 W. Mifflin St. They toured the buildings and discussed the neighborhood review process. A summary of the feedback is being prepared. The new project blends in very well with the existing buildings, so well in fact that some people have not realized it was new construction.
5. Pat Meehan has been providing liaison and support services to the James Madison Park District in their review of the proposal for 123 & 125 N. Butler.
6. Ostlind is still working to arrange a meeting with the new alders to introduce them to the protocol and encourage them to support its use.

**The next meeting of the committee will be Tuesday June 19th at 9:00 AM**
